Mr. R.V. Bhaskar Reddy
Proprietor of Bhaskar
Alloy Castings
Manufacturer &
Supplier Since 2014

ESTABLISHED IN 2014 BY R.V. BHASKAR REDDY HAS GROWN UP BY LEAPS AND BOUNDS. PRESENTLY THE COMPANY IS A LEADING MANUFACTURER, SUPPLIER AND ENGAGED AS THE MANUFACTURER

We are proud to introduce ourselves as a prominent leader in the manufacturing, importing, exporting, and supplying of high-quality spare parts. We supply the castings in as cast and fettled condition, rough machined condition as well as in fully machined condition as per the customer's requirement, We regularly manufacture Carbon, Stain Less Steel, Manganese Steel Castings and Hi-Chrome Castings. We have a production capacity of 100 Metric tons per month with a capacity of 1.6 Ton Single piece Casting for Heavy Engineering & Equipment Manufacturing Industries, Stone Crushing Machinery, Cement Plants, Mining Industry, etc., Our diverse product portfolio caters to a wide range of industries, including those requiring alloy steel castings, earth-moving excavator bucket tooth points and adaptors, stone crusher spares, and numerous other critical components.

****Precision Castings for a Wide Range of Industries****

As a leading supplier of castings, we offer a comprehensive range of products and services to cater to the diverse needs of our clientele. We specialize in manufacturing castings in various conditions, including as-cast and fettled, rough machined, and fully machined, as per the specific requirements of our customers.

****Material Expertise****

Our expertise encompasses the production of Carbon, Stainless Steel, Manganese Steel, and Hi-Chrome Castings. These materials are renowned for their exceptional durability, strength, and resistance to wear and corrosion, making them ideal for applications in demanding environments.

****High Production Capacity****

With a production capacity of **100 Metric tons**, we are equipped to fulfill large-scale orders efficiently. Our state-of-the-art facilities and skilled workforce ensure consistent quality and timely delivery. Additionally, we have the capacity to produce single-piece castings weighing up to 1.6 Tons, catering to the needs of heavy engineering and equipment manufacturing industries.

****Industry Applications****

Our castings find widespread application in a variety of sectors, including:

- * Heavy Engineering & Equipment Manufacturing Industries
- * Stone Crushing Machinery
- * Cement Plants
- * Mining Industry

****Custom Solutions****

We understand that each industry has unique requirements. Our team works closely with customers to develop custom solutions that meet their specific needs. Whether it's optimizing material selection, tailoring casting dimensions, or providing additional machining services, we strive to deliver tailored solutions that enhance our customers' operations.

****Benefits of Our Castings****

- * High strength and durability
- * Resistance to wear and corrosion
- * Precision machining capabilities
- * Large-scale production capacity
- * Custom solutions for specific applications

Our unwavering dedication to providing an exceptional service to both trade and industry has resulted in a phenomenal growth rate over the years, affirming our belief that excellence in customer service is paramount to success. We have garnered a loyal clientele who rely on us for their diverse requirements, knowing that we consistently deliver superior quality, timely deliveries, custom solutions, cost-effectiveness, and effective after-sales service. Understanding the vital role our customers play in our success, we are committed to exceeding expectations and building lasting partnerships based on trust, reliability, and a shared commitment to achieving mutual goals.

BHASKAR ALLOY CASTINGS

OUR STORY

Established in 2014 by R.V. Bhaskar Reddy has grown up by leaps and bounds. Presently the company is a leading manufacturer, supplier and engaged as the manufacturer of Alloy Steel Castings with Machining, Earth Moving Excavator bucket Tooth points , adopters, Stone Crusher Spares and many others. We are ISO 9001 : 2015 Certified

Bhaskar Alloy Castings

headquarters and central warehouse is based in Hyderabad, Telangana(India). This location is the perfect choice as nearly all the major brands have substantial facilities in this region. All parts are funneled through our Telangana warehouse and shipped directly to the end user. We have invested a lot in our supplier accessibility and if one doesn't have the part, we have another that probably does.

At Bhaskar Alloy Castings we appreciate how the availability of Excavator Bucket

Tooth Points, and components is vital to your business operations. The need to avoid machine breakdowns and keeping your equipment running are just some of the challenges you are faced with daily. We therefore take time to supply the complete range of Genuine Excavator Bucket Tooth Points, ,for over 50+ Different Brands including Komatsu, Hitachi, Atlas Copco, Sandvik & Volvo but to mention a few.

Bhaskar Alloy Castings specialize in the supply of spare parts for Heavy Earth Moving Machinery
Products like : All Earth Moving Excavator: Excavator Bucket Tooth Points, Adopters, Side Cutters Stone Crusher Spare Parts (Smaller to Higher) : Jaw Plates, Concave, Mantle, VSI Spares, Side Plates Alloy Steel Castings : Carbon Steel Castings, Manganese Steel Castings, Stainless Steel Castings. Castings(Even Industrial Castings We do)

Technical Mechanical Services - We have over 14+ years experience and located in over 16 States of India & Different countries. Bhaskar Alloy Castings is one of Telangana leading suppliers of Genuine and Original Equipment Manufacturers of Spare parts to the Mining, Quarrying, Civil Engineering & Plant Hire industries.

Leading Manufacturer & Supplier

Telangana

Why Us ? Some of the Reasons, Which make us a Preferred business Partner for our clients are : High Standards of quality | Competitive Pricing | Customization | Timely Delivery | Excellent Customer Responsiveness | Versatile attributes & techniques used while production

Provide Castings safety and performance. You can greatly diminish the possibility of elevator malfunction and secure top Castings performance.

We value people more than we value the technology. People are our no. 1 asset.

We make complex seem easy. Youi just sit back and we'll handle everything!

OUR PLATFORM

To achieve these transformative benefits, manufacturing promises higher productivity, greater customer satisfaction , and lower costs.

Our customer service Product and makes it easy to connect with customers, help them succeed, and turn them into promoters of your business.

Create more value from customer relationships, Enhance customer experience and empower technicians Unify data across sources to unlock customer and equipment insights

PRODUCT SUPPORT & TRAINING

Baskar Alloy Castings are able to offer site visits, accompanied by engineers from both the factories. This will provide technical and commercial support and show the opportunities we can offer to our customers in this era, where a reduction in cost is crucial.

Additional training, technical support and regular site visits can be provided by our qualified team of Technical Engineers and regular site visits from the Baskar Alloy Castings -Manager, as often as you so require.

Mr .Bhaskar Reddy a visionary entrepreneur is our mentor and guide, who have laid out effective and well defined working methodologies for the organization. His ethical business policies and sharp business acumen have helped us gain prominence in the industry.

We are one of the ISO 9001 : 2015 Certified is a global industry standard that specifies requirements and best practices for a quality management system (QMS).

1. **Customer focus:** attracting and retaining customers by meeting, exceeding, and adapting to their needs
2. **Leadership:** unified direction and purpose across the organization, from high-level management to employees, a culture of internal collaboration
3. **Engagement of people:** empowering employees to be their best at work leads to better value for your customers. Staff should have sufficient training, support, and resources to do their job well.
4. **Process approach:** seeing activities as processes that connect and function within a system, ensuring that everyone is familiar with the organization's processes and how it all works together to drive business
5. **Improvement:** sustaining an ongoing focus on improvement even as time goes on, being proactive when it comes to building innovation, and reacting to internal and external changes as they evolve and manifest in different ways
6. **Evidence-based decision making:** establishing, measuring, and acting on quality metrics for greater ROI and efficiency
7. **Relationship management:** identifying and effectively managing key stakeholder and supplier relationships through an established plan

Bhaskar Alloy Castings

Within 14 years of our inception, we have gained specialization in rendering Alloy Steel Casting Services at the prime location of Telangana, India. We are backed by a proficient team of professionals who are well versed with the modern machinery that assist us to undertake all kinds of casting services. Our offered services are ideal for casting of steel in specific moldings to attain the desired shape. Appreciated for its reliability and timeliness, these Alloy Steel Casting Services are rendered at the lowest prices.

****Exceptional Quality and Service:****

Quality is paramount to us. We adhere to the highest industry standards in the manufacturing process, employing advanced equipment and skilled craftsmen to guarantee the durability and reliability of our products. Our team of experts conducts rigorous inspections at every stage to ensure that only the best components reach our customers.

****Timely Deliveries and Cost-Effectiveness:****

We understand the importance of timely deliveries in minimizing downtime and maximizing productivity. Our efficient logistics system ensures that orders are processed and shipped promptly, meeting the specific requirements of our clients. Additionally, our competitive pricing and commitment to cost-effectiveness make our products accessible to a wide range of businesses.

****Customization and After-Sales Support:****

We believe in tailoring our services to the unique needs of our customers. Our engineering team collaborates with clients to develop customized solutions, ensuring the perfect fit for their applications. Furthermore, we provide comprehensive after-sales support, offering technical assistance, spare parts, and warranty coverage to ensure long-term success.

****Dedicated and Efficient Service:****

At the heart of our business lies a dedicated team of professionals who are committed to providing exceptional service. We believe in building strong relationships with our clients, understanding their needs, and going the extra mile to exceed their expectations. Our unwavering dedication has enabled us to establish a loyal customer base who rely on us for their diverse requirements.

****Conclusion:****

As a leading manufacturer and supplier, we are committed to delivering superior quality alloy steel castings, excavator parts, and other essential components to our valued clients. Our commitment to quality, efficiency, customization, cost-effectiveness, and after-sales support ensures that we remain a trusted partner in the success of various industries. We invite you to explore our comprehensive product line and experience the exceptional service that sets us apart.
